

Please, please, please do not allow anything to weaken the current State Do Not Call List. I have enjoyed not having to hear the phone ring during my dinner hour. I only wish you could outlaw charities that use telemarketing services to solicit donations as well! The list of banks and credit card companies opposing the law is ridiculous to me. If I want to do business with those companies, then I will contact them. I do not want them bugging me at home!

Thank you for your time.

Lyn Humphrey
